

# Welcome

At **Parkside Vets** we want to make preventative health care easy and affordable to help you give your pets the best care possible. We believe that prevention is better than cure rather than waiting until a pet is ill and suffering to put things right. Early diagnosis of health problems will help your pet to live a long and healthy life.

Our **Pet Health Plan** is not pet insurance. It covers the regular treatments your pet needs throughout life, such as vaccinations, flea and worm treatments and regular health checks. Extra benefits of the plan include discounts on food and other routine treatments your pet might need.

## Prevention is better than cure!

At **Parkside Veterinary Group**, we've designed our **Pet Health Plan** so that you as a pet owner can ensure that your pets receive the very best quality preventative treatments, through a simple monthly direct debit. The concept of spreading the annual cost of household bills is a regular and well recognised feature of our daily lives - why should the essential preventative treatments for your pet be any different.

Read on for more information, or speak to one of the team today to find out how you can save money, while providing for your pet's ongoing health.
